## CAREER OBJECTIVE: .NET Software Developer

### Key Skills

- Strong experience with software development, integration with legacy and third-party systems.
- Transformation of business requirements into technical specifications and functional systems.
- Experience in creating, managing and optimizing websites and scalable systems with high volume of hits.
- Good knowledge of Application Lifecycle Management (ALM): Requirements Management, Software Architecture, Development, Testing, Release Management and Issue Tracking.
- Technical Skills: .NET, C#, ASP.NET, MVC, Entity Framework, LINQ, Web Services, Javascript, jQuery, HTML5, CSS3, Bootstrap Framework, XML, RESTful, Web API, OAuth, OWIN, Visual Studio, Object-Oriented Programming, AngularJS, MongoDB, SQL Server, Transact-SQL, IIS, Team Foundation Server (TFS), Subversion (SVN), Git, Kanban, AJAX, MER, UML, SCRUM, Redis, Couchbase, WCF.

### Education

2011 – 2015 USP University of São Paulo – the biggest and most important public university in Brazil.

Bachelor's degree honours, Bachelor of Information Systems

### International Experience

From December 2012 to March 2013 I worked in Dublin, Ireland, in GamingVC's headquarters, the company that bought the Forte Desenvolvimento that I was working for.

### Work Experience

**Site Minder Sydney**, *Service Desk Administrator*, April 2017 to Current.

Working full-time helping the GDS team load data into the Sabre system. Timely troubleshooting opened cases in Sales Force system from our customers.

**Envision Tecnologia**, *Senior .NET Developer*, May 2015 – August 2016 (1 year and 3 months)

Development/maintenance of features in a Travel Solution System where customers can sell airline tickets, issue tickets, book hotels, rent cars and sell personalized services. Implementation of a High Performance Caching using distributed NoSQL Database called Couchbase Server storing search results of flights, hotels, cars and services generated by thousands of customers, providing low-latency, delivering search response near real-time, better user experience. Development of Web Services integration with third-party systems such as Sabre, Tam, Azul, Gol and development of a Daily Updater Job responsible for searching for the best price of city pairs in a range of dates defined by each customer. Technologies used: C#, WCF, Couchbase, Redis, Javascript, SQL Server, Visual Studio 2015 Team Foundation Server (TFS), Web Service, SOAP, XML, jQuery, HTML, CSS.

**FCamara**, *Senior .NET Developer*, January 2015 – April 2015 (3 months)

Hired to develop a Time Sheet System where consultants point working hours in to their respective projects. I was responsible for surveying technical requirements, participating in business meetings, estimating deadlines, giving suggestions for improvements, customer service via email and phone to solve problems with the system. I led a small team of five developers that participated in the project. Technologies used: C#, ASP.NET MVC, Web API, OAuth, OWIN, Javascript, Bootstrap, AngularJS, Entity Framework, SQL Server, Visual Studio 2013 Team Foundation Server (TFS), Kanban, RESTful.

**F10 Desenvolvimento/Betboo/DiversoGames**, *Senior .NET Developer*, July 2011 – May 2014 (2 years and 11 months)

I was responsible for Live Casino and Games projects from the European area of a website developed from scratch. Attended meetings to integrate third-party systems with companies from England, Scotland, Latvia and Malta, which were suppliers of online games. Daily contact through Skype and email with the team in Ireland, development of Web Services and jobs to automate download of international currency conversion rates, integration with payment gateways such as Online Voucher and Super Guilloutel. Stored Procedures optimization for financial reporting and maintaining internal systems. Technologies used: C #, ASP.NET, SQL Server, Entity Framework, Visual Studio 2010 Team Foundation Server (TFS), GIT, Github, Javascript, jQuery, Bootstrap.

**Rede de Ensino LFG**, *Senior .NET Analyst Developer*, November 2009 – June 2011 (1 year and 10 months)

I participated as leader of a team of three developers. Responsibilities included weekly meetings with business areas for gathering requirements, documentation creation (doc. Requirements, Use Cases, Schedule (Visio), Class Diagrams), delegate activities and approval of projects. In other projects, I participated as a developer, giving maintenance in administrative systems, creating new features and modeling databases. Agile SCRUM methodology used. Technologies used: C#, SQL Server, ASP.NET, Visual Studio 2010 Team Foundation Server (TFS), Javascript, jQuery.

**Freelancer Project, .NET Analyst Developer, February 2010 – April 2010 (3 months)**

I developed a hot site for a workshop organized by the Faculty of Economics and Administration, University of São Paulo. Responsibilities included developing the Web application, integration with online payment methods (credit card and bank transfer), database modeling and meetings with partners to define integration of online payment systems. Technologies used: Visual Studio 2008, C#, ASP.NET, SQL Server.

**Agência Digital iThink, Mid .NET Analyst Developer, June 2008 – October 2009 (1 year and 5 months)**

I participated in the development of large business projects such as Aché Laboratories, Vila Mariana Hospital, Construction Company Gafisa and Telefonica. Responsibilities included integrating the websites with a Flash platform, Web Services development, integration with the CRM Sales Force and Twitter, development of a RSS reader using XML, customer/business meetings to gather requirements, analysis and modeling of database, development and maintenance of Web Applications, use of JavaScript, creating stored procedures, use of DotNetNuke and development of applications using Windows Service.

**Paicon Technologies, Junior Analyst Developer, March 2007 – May 2008 (1 year and 5 months)**

I participated in the development of four projects (Merchant, Liralink Stock, Liralink Control Registrations, MKT System). Responsibilities included visiting the client, meeting for requirements gathering, database modeling, creating stored procedures, development of Web and Windows Applications, deploy on the server. Developed Systems for the chemical industry and a company of Angola.

**Centro de Inovação Microsoft, Internship, June 2005 – March 2007 (1 year and 10 months)**

I participated in the development of four web projects (SEADS, LUPA-PDA, e-Book, Motorola) highlighting the SEADS project, which I was chosen to be a leader. Responsibilities included team activities report directly to the board, meetings with the client to requirements gathering, UML modeling of the system, development of Web applications, creating Stored Procedures.

**Courses**

Coaching Genius – International Society of Neuro-Semantics – 32 hours - February 2016

M101N: MongoDB for .NET Developers – 40 hours – Certified <http://goo.gl/B7Eptq>.

Kaplan International School – English – Dublin/Ireland – 3 intensive months – 210 hours.

CNA English School – 1 year and 6 months – 2 times week – 1h30/day

2609 Microsoft Training – Programming C# using Microsoft .NET.

Mounting and Configuring Computers (SENAI).

01/06/2016

To whom it may concern,

This is to certify that KEVY AUGUSTO MENDES GRANERO - ME, registered under CNPJ:14.197.491/0001-17, provided full time IT Services at ENVISION TECNOLOGIA through its director, KEVY AUGUSTO MENDES GRANERO, who acted as a Developer Programmer from 25/05/2015 until now.

Responsibilities / Activities / Duties:

- Perform application coding for application enhancements and new functionalities using programming tools;
- Prepare and maintain code for various Dot Net applications and resolve any defects in systems;
- Research, suggest and handle software upgrades and programming improvements;
- Prepare test-based applications for various Dot Net applications;
- Write Data Base procedures to ensure execution of logical and physical data models according to customer requirements;
- Manage defect-tracking system, resolve all issues, and prepare update for systems;
- Develop documents for customers of procedures for the applications;
- Participate in status meetings for projects everyday;
- Monitor everyday activities of system and provide require support;
- Present resolutions for technical and functional problems in the applications;
- Write, translate and develop software programming applications as per specifications;
- Perform application coding according to quality standards and deadlines.

Envision Tecnologia

Johnny Caldas / (11) 3549-6399

ENVISION SERV. E SOLUÇÕES EM INF. LTDA  
CNPJ: 07.404.918.0001-45

Sao Paulo March 29, 2016

To whom it may concern,

*This is to certify that KEVY AUGUSTO MENDES GRANERO - ME, registered under CNPJ:14.197.491/0001-17, provided full time IT Services at **F10 Desenvolvimento de Software e Consultoria Ltda.** through its director, KEVY AUGUSTO MENDES GRANERO, who acted as a Senior .NET Software Programmer from 18/07/2011 until 30/05/2014.*

*Responsibilities/Activities/Duties:*

- Hands on design and development activities on an assigned project.
- Ensure compliance with best practices development standards, processes, and protocols.
- Ensure delivery of software products on time, on budget, with first-time quality.
- Delivery fully integrate digital solutions with third-party systems.
- Partnership with IT manager and team to deliver against commitments.
- Generate and/or review software designs relevant to assigned content creation and management technologies.
- Assess the quality of all release implementations in terms of maintainability, automated test coverage (as much as possible) and adherence to project standards.
- Interpret and translate technical requirements and architectural input into specific development plans.
- Provide strategy and execute on efforts to improve the efficiency and quality of development projects.
- Investigate and analyse reported defects and recommend solutions to these problems including code changes, data updates or configuration modifications.
- Write quality, testable, maintainable and well documented code and unit and integration tests.

## PAICON TECHNOLOGIES

Rua Domingos Rodrigues, 314 cj 105/106

CEP: 05075-000 São Paulo, SP

11.3832.3802 [www.paicon.com.br](http://www.paicon.com.br)

08/06/2016

To whom it may concern,

This is to certify that Mr. KEVY AUGUSTO MENDES GRANERO was an employee of the Paicon Technologies and was employed from 20/03/2007 until 26/05/2008.

Mr. KEVY AUGUSTO MENDES GRANERO acted on a full time basis as presented below:

Intern	20/03/2007 - 31/08/2007
Junior .NET Developer	01/09/2007 - 26/05/2008

Your main responsibilities included:

- Maintain, troubleshoot, optimize and improve existing applications and systems.
- Work within a cross functional team to develop enhancements in a highly iterative fashion. Involves close collaboration with product owners, developers and testers.
- Provide operational support for products with both internal and external clients including software deployment, client implementation and custom configuration.
- Responsible for both product and process enhancement.
- Develop practical and workable solutions to technical and business problems.
- Design, development, implementation, and ongoing support of critical business applications using the Microsoft .NET Framework and SQL Server technologies.
- Modify existing software to: correct errors, allow it to function in new operating environments, or improve performance
- Work in a team environment with shared code; disciplined use of source code control and process documentation
- Participates in many aspects of the product life cycle including solution design, implementation, and testing.
- Work at client locations as Consultant as required
